

## Have Cause, Will Run

### Team TDI runs the Delhi Marathon for helping children suffering from cancer Delhi, November 09, 2008

Unleashing the joy of running together with enthusiasm and team spirit, and also to support the cause of helping children suffering from cancer, many members from our various offices bagged the unforgettable experience on Sunday at "The Airtel Delhi Half Marathon - 2008", flagged off by Chief Minister Shiela Dixit.

The event was beamed live across hundreds and thousands of homes in India and abroad, courtesy DD, CNN-IBN 7, Channel 18, CNBC, CNN and All India Radio. Around thirty of our volunteers, wearing TDI shirts and caps, participated in the event, along with various celebrities and other corporate teams. The entire amount raised was given to NGO, CAN KIDS that takes care of children suffering from the disease.

As a responsible corporate, we understand our responsibility towards the society and this was one another effort in this direction, and we hope many more will follow soon. We are also thankful to CAN KIDS for their continual guidance and support to make the event a great success.
